

Dr. John Matthew Fabian is both a board certified forensic and clinical psychologist, and fellowship trained clinical neuropsychologist. Dr. Fabian is a nationally recognized expert witness specializing in criminal and civil forensic psychological and neuropsychological evaluations.

Dr. Fabian was formerly director of a state court psychiatric clinic, and has worked and testified in adult and juvenile court psychiatric clinics, a maximum security state forensic hospital, and a Federal Bureau of Prison forensic center. He also has specialized experience testifying in military forensic proceedings. Dr. Fabian has extensive training and experience working as a clinical neuropsychologist at the University of New Mexico School of Medicine, Center for Neuropsychological Services, and at the Veteran's Administration Polytrauma Traumatic Brain Injury and PTSD unit. In addition to teaching courses in forensic psychology, neuropsychology and the law, and violence risk assessment, he is published in law review, peer review, and bar journals.
