- Applications for Assistance

What do veterans deserve?

- Veterans deserve lawyers who will listen to them and who want to use the expertise they already have to guide them.
- Veterans deserve more than one 15 - 30 minute clinical session.
- Veterans deserve consistency. Many do not have the capacity to return to a clinic a month or two later to explain what happened to a different lawyer and start over.
- And most importantly, **VETERANS DESERVE DEDICATED ADVOCATES**, not just mentors.
